Widths include measurement for bushes. Please note due to manufacturing tolerances widths shown may vary by +/- 2mm.

The Cornel Electric range combines the classic Cornel design with the flexibility of a fully controllable electric element. Offering 8 function modes, the Cornel Electric can be set to operate when you wish, on a daily basis, or you can select one of the three pre-set programmes. The Open Window Function detects an open external door or window and will turn the radiator off if it detects that it is allowing heat to escape, saving energy and money.

Technical Drawings

Cornel Electric radiators must be hung a minimum of 150mm off the floor.

- IP24
- 8 operating modes: weekly program, 3 integrated pre-set timed programs, pilot-wire facility, comfort, night and antifreeze
- Open Window Function
- 2-Year Guarantee on the element
